

## Press release

Vienna, Austria, March 27, 2014

### **Certified Energy Efficiency and Quality**

## **LOYTEC achieves Energy Efficiency Class A+ for its Headquarters**

In summer 2013, the extension of the LOYTEC headquarters was completed. Equipped with the LOYTEC L-ROC room automation system, the highest efficiency class A+ could be reached in course of the eu.bac system audit. This was made possible through the complete integration of the functions heating/cooling, sunblind, and lighting.

The eu.bac system audit was introduced by eu.bac, the European Building Automation Controls Association, following different EU guidelines and national laws that demand the proof of energy efficiency of buildings.

The eu.bac Certification Mark and Energy Label assures users the conformity to products and systems, defined in the European guidelines and norms. Additionally, the registered eu.bac Cert Mark symbolizes energy efficiency and quality and is furthermore the European quality label for products in the field of building automation.

In course of the certification, all rooms together with their control features, the logic connections across rooms, as well as the energy flows were depicted in the system testing tool provided by eu.bac. According to this information, the energy efficiency of the building extension was classified, and finally awarded with the highest class A+.

**About LOYTEC:**

Founded in 1999, LOYTEC electronics GmbH today ranks among the leading European providers of intelligent network infrastructure products for building automation. There, LOYTEC exclusively relies on open and standardized communication protocols. LOYTEC develops, manufactures, and distributes router and gateway solutions, embedded Automation Servers and I/O Controllers, the room automation system L-ROC, DALI lighting controls, and also graphical user interfaces in the form of touch panels or via PCs or mobile devices. The primary focus is on network solutions for buildings and real estate. Methods provided are a secure remote access through the internet, notification, and of course functions for data acquisition, information visualization, and data storage.

Product development and manufacturing are located at the Austrian headquarters in Vienna. Particular emphasis is laid on careful and top-quality execution. LOYTEC is certified according to ISO 9001 since 2004. In addition, the company has branch offices in France (software development) and Germany, (sales) and subsidiaries in the USA and Asia. LOYTEC supplies to more than 80 countries around the world. The export rate is 98 %. Strong partnerships with leading industrial companies and intensive research work in cooperation with universities result in innovative products for customers all around the world. Numerous national and international awards confirm the run of success of this Austrian high tech provider.

LOYTEC products are found in projects like the California Plaza Parking Garage in California, the City of Chandler in Arizona, the St. Louis Zoo in Missouri, the Sony Corporation (Sony City Osaka) in Tokyo, the Iberdrola Tower in Bilbao, the Uniqa-Tower or the T-Center in Vienna, the main train station and the German parliament (Reichstag) in Berlin, the Esprit Arena Düsseldorf, one of the most modern multifunctional stadiums of Europe, the Rheinhallen/RTL-Studios in Cologne, the biggest cruise ship of the world, the "Oasis of the Seas", the fair center Jaarbeurs Utrecht in the Netherlands, Il sole 24 ore, the headquarters of Italy's leading financial magazine in Milano, the Governor Rockefeller Empire State Plaza in Albany/New York State, the world's most spectacular sport arena, the Dallas Cowboys Football Stadium in Arlington/Texas, the Wangjing International Commercial Center, the China Reinsurance in Beijing and many others.
